

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) An image sensor comprising:

a) a plurality of pixels for absorbing incident light; and

b) an absorptive material disposed in a color filter spanning the pixels and that absorbs wavelengths at a transition between a desired bandpass and rejection band, and wherein principal light entering the image sensor comprises image forming light which passes through the absorptive material once and remaining reflective light which passes through the absorptive material three times.

2-15. (Cancelled)

16. (Currently Amended) A camera comprising:

an image sensor comprising:

a) a plurality of pixels for absorbing incident light; and

b) an absorptive material disposed in a color filter that absorbs wavelengths at a transition between a desired bandpass and rejection band, and wherein principal light entering the image sensor comprises image forming light which passes through the absorptive material once and remaining reflected light which passes through the absorptive material three times.

17-28. (Cancelled)
